# SMALL WORLD

This tiny globe is brought to you by the members of United Shipping worldwide. You see, although people say that communications are making the world smaller, it's only when manufactured goods, sub-components, raw materials and parts make it safely and on time from port to port, that we really enjoy the benefits of the "global village."

Simply stated that is the mission of every United Shipping Partner. From freight forwarding to customs clearance, our **electronically-linked** and **personally-committed** people are what really makes world trade go 'round.

If you want to enjoy the benefits of superior expertise, respected local organizations, and a worldwide network, call your local United Shipping Partner today. Let us show you how we can shrink your world.
