W.F. Whelan Co., (Romulus, MI), is pleased to announce the completion of a major upgrade and improvement to their RF (radio frequency) scanning and Warehouse Management System throughout their facilities. Located near Detroit Metro Airport, W.F. Whelan Co. is one of Michigan's most respected customhouse brokers and third party logistics providers. By upgrading to this new RF scanning and Warehouse Management System, W.F. Whelan Co. again demonstrates their commitment to continuous improvement, and ensures their services will continue to meet AIAG standards and 100% automotive compliance.

Lexon Corporation's C.Core system integrates the latest technology with demonstrated industry experience to provide clients the ability to respond efficiently and accurately to customer demand. Inventory is constantly updated in real time and mistakes and over/under shipments are eliminated. W.F. Whelan Co. VP/COO Dennis Webb indicates "the addition of this system demonstrates our continued commitment to education and technical improvement".

W.F. Whelan Co., is an ISO 9001 certified, full service customhouse broker with over 30 years of professional experience. Services include, Import, Export, Warehousing and Distribution. The warehouse facility has Foreign Trade Zone and Container Freight Station status. In all aspects of business, W.F. Whelan Co's strength is their flexibility to implement customized solutions.
